RE: ARKeX/TGS-NOPEC Labrador Sea Gravity Gradient Survey

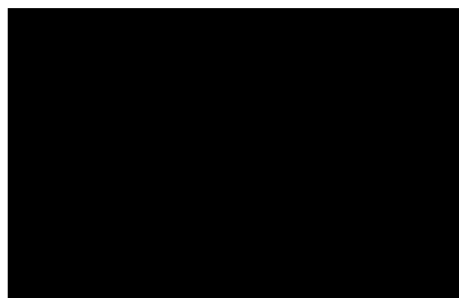

Dear Adam:

On January 9th, 2014, RPS Energy Canada Ltd filed a Project Description on behalf of ARKeX Ltd. and TGS-NOPEC Geophysical Company ASA (TGS) with the Canada - Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) to conduct a Gravity Gradient Survey offshore Newfoundland and Labrador.

TGS no longer has an interest in pursuing an Environmental Assessment on this project and ARKeX no longer exists as a company. Please accept this letter as an official withdraw and cancellation of the project.

Please do not hesitate to contact me directly if you have any questions or concerns.

Sincerely,

Senior Regulatory & Compliance Specialist
TGS
