Dear Mr. Murphy,

Subject: BHP Project Description for Seabed Survey

BHP is please to submit the attached Project Description for a Seabed Survey in support of well planning and mitigations for an exploration drilling program.

The Project Description is being submitted to initiate the EA process. It has been prepared as per the Geophysical, Geological, Environmental and Geotechnical Guidelines (C-NLOPB 2019) and will allow the C-NLOPB to both confirm EA requirements and to provide a Scoping Document to inform the planning, preparation, and submission of the Project's EA report.

Should there be any comments, questions or concerns, please don't hesitate to contact me at drew.carlock@bhp.com or our Regulatory Advisor, Collette Horner at collette.horner@bhp.com.

Sincerely,

Drew Carlöck
Manager Geoscience, Canada License
