Commencement on Environmental Assessment**

Thank you for your email of November 17, 2014 and the attachments regarding the recently submitted filings from the proponents noted above. We have reviewed the documents and have determined that we are not in possession of specialist or expert information necessary to conduct the environmental assessment of the project. As well, we have no comment on the project description or draft scoping document.

We look forward to receiving continued updates on the proposed geophysical survey.

Best Regards,
