Dear Sir:

RE: North Flemish Pass Gravity Survey 2015-2019

Bridgeporth Holdings Ltd. (Bridgeporth) and JEBCO Seismic (Canada) Co. (JEBCO) in partnership are proposing to conduct a Non-Exclusive Geophysical program offshore Newfoundland under the jurisdiction of the Canada - Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB).

The Operator will be Bridgeporth a geophysical service company for the oil & gas exploration industry specializing in providing non-seismic solutions. Bridgeporth helps deliver an upgraded geologic insight to exploration companies seeking a deeper understanding of their geology, but lacking the specialist resources necessary to efficiently leverage all that non-seismic data can offer. Bridgeporth helps reduce the risk of exploration; increasing the likelihood of success while significantly reducing the intrusive component of the exploration program by deploying passive primary measurement technology.

Please find attached a Project Description for the potential 2015 – 2019 survey.

Should you require anything further, please do not hesitate to contact me.

Yours truly,
