Corridor Resources Inc. Old Harry Prospect Geohazard Survey

On 20 April 2010, in response to C-NLOPB's Federal Coordination Regulations letter, the NEB indicated it would likely require an environmental assessment of the [proposed Corridor Resources Inc. Old Harry Geohazard Survey] Project. The NEB now understands that the portion of the proposed project area to the west of C-NLOPB Exploration Licence 1105 is not within NEB's regulatory jurisdiction. Therefore, the NEB will not be authorizing any portion of Corridor's Geohazard Survey nor does it require an environmental assessment. This does not represent any change to the geographic or temporal scope of the Project as assessed by the C-NLOPB.

Thank you,

John E. Korec, EP, P.Geol.,
