Calgary, AB T2P 0X8

Dear Mr. Korec:

**Re: Corridor Resources Inc. Old Harry Prospect – Geohazard Survey Program 2010 - 2020
Federal Coordination Regulations Section 5 Notification**

On February 10, 2010, Corridor Resources Inc. (Corridor) submitted to the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) a project description for a proposed geohazard survey program in the Old Harry Prospect area offshore Newfoundland in the Gulf of St. Lawrence. The C-NLOPB determined that the Project would require an authorization pursuant to Section 138(1)(a) of the *Canada-Newfoundland Atlantic Accord Implementation Act* and Section 134(1)(a) of the *Canada-Newfoundland and Labrador Atlantic Accord Implementation Newfoundland and Labrador Act*. Since this time, Corridor has notified the C-NLOPB of an expansion to both the temporal and spatial scope of the project as proposed.

The attached project description (February 2010) outlines the activities originally proposed for the geohazard survey program. The attached letter from Corridor (April 19, 2010) describes the proposed changes to the project description. The proposed geohazard surveys will collect site-specific information to identify potential drilling hazards such as pockets of shallow gas and steep or unstable substrates that are potential construction hazards. Corridor is proposing up to eight geohazard surveys beginning in 2010 and continuing through 2020 in an expanded project area from that proposed in February. The scoping document has been revised to reflect this change and is attached for your review and comment.

The C-NLOPB has determined, in accordance with paragraph 3(1)(a) of the *Regulations Respecting the Coordination by Federal Authorities of Environmental Assessment Procedures and Requirements* (FCR), that an environmental assessment of the project under section 5 of the CEA Act is required. Pursuant to Section 12.2(2) of CEA Act, the C-NLOPB is assuming the role of the Federal Environmental Assessment Coordinator (FEAC) for this screening.

This letter seeks, pursuant to the FCR, to identify the departments or agencies that may have obligations as responsible authorities or as federal authorities and to set a timetable for conducting a screening.

Timing of Assessment

The C-NLOPB requests that the screening be carried out in as timely a manner as possible, and propose the following schedule:

Federal Coordination Request – determination of RA responsibilities	Response by April 27, 1, 2010
Review of draft EA	Response approximately 6 weeks after receipt of document.
Review of revised EA or addendum, if required	Response approximately 3 weeks after receipt of document.
Preparation of EA determination by Responsible Authority(s)	3 weeks for completion (may commence during review of final EA or addendum); includes review of all drafts.

CEA Act Federal Coordination Regulations - Section 5 Notification

- Pursuant to section 5 of the CEA Act Federal Coordination Regulations, the C-NLOPB requests that you review the attached information and inform the C-NLOPB by **April 27, 2010** of your determination pursuant to subsection 6(1) of the CEA Act Federal Coordination Regulations.
- If you determine that you are likely to require an environmental assessment of the project, please advise the C-NLOPB of any approvals or authorizations to be exercised by your department.
- If you determine that you are in possession of any specialist or expert information or knowledge pursuant to paragraph 6(1)(c) of the CEA Act Federal Coordination Regulations, please advise the C-NLOPB of the nature of that information or knowledge and the person to contact for assistance by **April 27, 2010**.

A “Faxback Response Form” has been provided for your convenience. If no response is received from you by the date indicated above, the C-NLOPB will assume that your department or agency has no responsibility to undertake an environmental assessment and is not in possession of specialist or expert information or knowledge.

Species at Risk - Section 79(1) Notification of Competent Minister

Pursuant to Section 79(1) of the *Species at Risk Act (SARA)*, the C-NLOPB hereby informs the Minister of Environment and the Minister of Fisheries and Oceans (the Competent Ministers) that the following Schedule 1 Species are likely to be in the project area under the jurisdiction of the C-NLOPB. A determination of the likelihood of adverse affects on these species will be undertaken during the screening process.

- **Endangered:** Turtle, Leatherback (*Dermochelys coriacea*)
Whale, Blue (*Balaenoptera musculus*)
Gull, Ivory (*Pagophila eburnea*)
- **Threatened:** Wolffish, Northern (*Anarhichas denticulatus*)
Wolffish, Spotted (*Anarhichas minor*)
- **Special Concern:** Wolffish, Atlantic (*Anarhichas lupus*)
Whale, Fin (*Balenoptera physalus*)

If you have any questions on the attached, or wish to discuss the above, I may be reached at 709-778-1431 or via email at <dhicks@cnlopb.nl.ca>.

Yours truly,

**Federal Coordination Regulations
Section 6 - Record of Determination**

Project Title: Old Harry 2010 – 2020 Geohazard Survey Program

Location: Gulf of St. Lawrence

Proponent: Corridor Resources Inc.

FEDERAL AUTHORITY: _____

NAME & TITLE: _____

SIGNATURE: _____ DATE: _____

In accordance with the Section 6 of the Federal Coordination Regulations, under the *Canadian Environmental Assessment Act* (CEAA), the Federal Authority identified above, has reviewed the project description and advises you of the following:

(a) it is **likely** to require an environmental assessment of the project ☐

Trigger	<input type="checkbox"/>	Proponent	<input type="checkbox"/>	Funding
	<input type="checkbox"/>	Land Transfer	<input type="checkbox"/>	Law List

Law List Trigger: _____

(b) it is **not likely** to require an environmental assessment of the project ☐

(c) it is **in possession** of specialist or expert information or knowledge that is necessary to conduct the environmental assessment of the project ☐

OR

(d) additional information is required to make a determination ☐

If the answer to (d) is "yes", the Regulations require that the additional information be requested within 10 days after making the determination.

Identify the contact person for the environmental assessment, if different from above.

Name & Title: _____

Address: _____

Telephone/Fax: _____

e-mail: _____

Please return via fax, by **April 27, 2010**, to:
