**SUBJECT: Corridor Resources Inc. Old Harry Prospect Geohazard Program
Final Environmental Assessment Report**

On November 5, 2010, Corridor Resources Inc. (Corridor) submitted to the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) a final version of its environmental assessment (EA) report. A copy of the report is attached for your reference.

Please note that this final EA report is an administrative consolidation that includes:

- The revised EA report submitted by Corridor on August 10, 2010 in response to review comments;
- The report submitted by Corridor on September 8, 2010 describing consultations it conducted in August 2010 in the Magdalen Islands; and
- A set of revised fisheries maps (Figures 6.8 through 6.20 in the August 10, 2010 EA Report), the need for which was noted in the C-NLOPB's October 4, 2010 EA determination.

The revised fisheries figures became necessary after a plotting error was identified on the figures that appeared in the original EA report. The data from the Quebec Region were incorrectly projected due to coordinates provided in degrees decimal and not degrees-minutes-seconds. This did not affect results presented or conclusions made in the EA Report.

It is important to note that there is no new information in the attached report then what was previously provided. If you have any questions on the attached, or wish to discuss the above, I may be reached at 709-778-1431 or via email at <Dhicks@cnlopb.nl.ca>

Yours truly,
