**Re: Corridor Resources Inc. Western Newfoundland and Labrador Offshore Area – Exploratory
Drilling Program 2012-2014
Federal Coordination Regulations Section 5 Notification**

On February 21, 2011, Corridor Resources Inc. submitted to the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) a project description for a proposed exploratory drilling program offshore western Newfoundland (the Project). The C-NLOPB determined that the Project will require an authorization pursuant to Section 138(1)(b) of the *Canada-Newfoundland Atlantic Accord Implementation Act* and Section 134(1)(b) of the *Canada-Newfoundland and Labrador Atlantic Accord Implementation Newfoundland and Labrador Act*.

The attached project description outlines the activities proposed for the exploratory drilling program. One exploratory well is planned on Exploration Licence (EL) 1105. A draft scoping document also is attached.

The C-NLOPB has determined, in accordance with paragraph 3(1)(a) of the *Regulations Respecting the Coordination by Federal Authorities of Environmental Assessment Procedures and Requirements* (FCR), that an environmental assessment of the project under section 5 of the CEA Act is required. Pursuant to Section 12.4(2) of CEA Act, the C-NLOPB is assuming the role of the Federal Environmental Assessment Coordinator (FEAC) for this screening.

This letter seeks, pursuant to the FCR, to identify the departments or agencies that may have obligations as responsible authorities or as federal authorities and to set a timetable for conducting a screening. We also are requesting your comments on the draft Scoping Document.

Timing of Assessment

The C-NLOPB requests that the screening be carried out in as timely a manner as possible, and propose the following schedule:

Federal Coordination Request – determination of RA responsibilities	Response by March 28, 2011
Review of draft scoping document	Response by March 28, 2011
Review of draft EA	Response approximately 6 weeks after receipt of document.
Review of revised EA or addendum, if required	Response approximately 3 weeks after receipt of document.
Preparation of EA determination by Responsible Authority(s)	3 weeks for completion (may commence during review of final EA or addendum); includes review of all drafts.

CEA Act Federal Coordination Regulations - Section 5 Notification

- Pursuant to section 5 of the CEA Act Federal Coordination Regulations, the C-NLOPB requests that you review the attached information and inform the C-NLOPB by **March 28, 2011** of your determination pursuant to subsection 6(1) of the CEA Act Federal Coordination Regulations.
- If you determine that you are likely to require an environmental assessment of the project, please advise the C-NLOPB of any approvals or authorizations to be exercised by your department.
- If you determine that you are in possession of any specialist or expert information or knowledge pursuant to paragraph 6(1)(c) of the CEA Act Federal Coordination Regulations, please advise the C-NLOPB of the nature of that information or knowledge and the person to contact for assistance by **March 28, 2011**.

A "Faxback Response Form" has been provided for your convenience. If no response is received from you by the date indicated above, the C-NLOPB will assume that your department or agency has no responsibility to undertake an environmental assessment, is not in possession of specialist or expert information or knowledge, and will not be commenting on the draft Scoping Document.

Species at Risk - Section 79(1) Notification of Competent Minister

Pursuant to Section 79(1) of the *Species at Risk Act (SARA)*, the C-NLOPB hereby informs the Minister of Environment and the Minister of Fisheries and Oceans (the Competent Ministers) that the following Schedule 1 Species are likely to be in the project area under the jurisdiction of the C-NLOPB. A determination of the likelihood of adverse affects on these species will be undertaken during the screening process.

- Endangered: Turtle, Leatherback (*Dermochelys coriacea*)
Whale, Blue (*Balaenoptera musculus*)
Whale, North Atlantic right (*Eubalaena glacialis*)
Gull, Ivory (*Pagophila eburnea*)
- Threatened: Wolffish, Northern (*Anarhichas denticulatus*)
Wolffish, Spotted (*Anarhichas minor*)
Whale, Beluga (*Delphinapterus leucas*) (St. Lawrence Estuary population)
- Special Concern: Wolffish, Atlantic (*Anarhichas lupus*)
Whale, Fin (*Balenoptera physalus*)
Whale, Sowerby's beaked (*Mesoplodon bidens*)
Cod, Atlantic (*Gadus morhua*)

If you have any questions on the attached, or wish to discuss the above, I may be reached at 709-778-1431 or via email at <dhicks@cnlopb.nl.ca>.

Yours truly,
