**Re: Corridor Resources Inc. Old Harry Prospect Exploratory Drilling Program 2012-2014
Environmental Assessment (CEAR 11-01-60633)**

On December 20, 2011, Corridor Resources Inc. (Corridor) submitted to the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) an environmental assessment (EA) report for an exploratory drilling program in the Newfoundland and Labrador offshore area consisting of one exploratory well on the Old Harry prospect within Exploration Licence (EL) 1105 between 2012 and 2014. The enclosed report "*Environmental Assessment of the Old Harry Prospect Exploration Drilling Program*" (Stantec December 2011) and its supporting documents "*Old Harry Drilling Mud and Cuttings Dispersion Modelling Final Report*" (amec 20 May 2011) and "*Modeling in Support of Corridor Resources Old Harry Exploratory Drilling Environmental Assessment*" (SL Ross October 2011) provide an environmental assessment of the exploratory drilling program activity. All of these documents, in both English and French, can be found on the C-NLOPB website at www.cnlopb.nl.ca.

The C-NLOPB is conducting a screening, pursuant to the *Canadian Environmental Assessment Act* (CEA Act), of the proposed Project. The EA report was completed in accordance with the scoping document prepared by the C-NLOPB on August 17, 2011.

Please review the enclosed EA report and forward comments no later than **February 28, 2011**. If you have any questions, you may contact me at (709) 778-4232 or by e-mail at eyoung@cnlopb.nl.ca.

Yours truly,

Original signed by Elizabeth Young
