Dear Mr. Hicks:

Re: Environmental Assessment Report for Corridor Resources Old Harry Project

Fisheries and Oceans Canada (DFO) has reviewed the information provided by Corridor Resources in response to comments by DFO on the revised environmental assessment report for the Old Harry Exploration Drilling Program.

DFO accepts the responses of Corridor Resources in relation to comments 41, 46, 47, 58, 91, 92, 96, 98, 110, 111, 348, 351 and 362 of the Disposition Table. However the information provided in relation to comments 53, 372, 373, 375, 376, 377, 381 and 382 does not alter the concerns expressed by DFO to the C-NLOPB on August 6, 2013 about the "Oil Spill Fate and Behavior Modeling Report", particularly in relation to the dispersal of possible oil spills on the ocean surface.

Should you have any comments or concerns please contact me [REDACTED]

Regards, [REDACTED]
