Re: Draft Scoping Document Exploration Drilling Project – EL 1105

Thank you for the comments you submitted in response to the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB)'s invitation to comment on the draft scoping document for the environmental assessment of an exploration well being proposed by Corridor Resources Inc. This well is within Exploration Licence 1105 (the Old Harry Prospect) located in the Newfoundland and Labrador Offshore Area.

All comments received will be placed on the project file and will appear on the C-NLOPB website at <http://www.cnlopb.nl.ca/environment/corridorresinc.shtml>. The contact information (i.e., email address, telephone number, mailing address) of private individuals will be redacted. Comments directly relating to the draft scoping document will be considered in its finalization. Those comments relating to matters of policy will be provided to the governments of Canada and of Newfoundland and Labrador. In addition, all comments will be provided to the Project Proponent, Corridor Resources Inc. for use as it prepares its environmental assessment report.

Thank you for your interest in this project. Further opportunities for public comment will include a period for public comment on the environmental assessment report upon its submission by the Proponent, and an additional period for public comment on the C-NLOPB's draft screening report prior to its completion.

Yours truly,

Elizabeth Young
Environmental Assessment Officer
