**Re: Deer Lake Oil & Gas Inc. 2009 Seismic Program Offshore Western NL
Federal Coordination Regulations Section 5 Notification**

On May 29, 2009, Deer Lake Oil & Gas Inc. submitted to the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) a project description for a proposed 2D seismic survey program offshore western Newfoundland Offshore (the Project). The C-NLOPB determined that the Project would require an authorization pursuant to Section 138(1)(a) of the *Canada-Newfoundland Atlantic Accord Implementation Act* and Section 134(1)(a) of the *Canada-Newfoundland and Labrador Atlantic Accord Implementation Newfoundland and Labrador Act*.

The attached project description outlines the activities proposed for the seismic program. A 2D marine seismic survey is planned on Exploration Licence 1102 and in adjacent areas. In addition, the scoping document has been attached for your information.

The C-NLOPB has determined, in accordance with paragraph 3(1)(a) of the *Regulations Respecting the Coordination by Federal Authorities of Environmental Assessment Procedures and Requirements* (FCR), that an environmental assessment of the project under section 5 of the CEA Act is required. Pursuant to Section 12.2(2) of CEA Act, the C-NLOPB is assuming the role of the Federal Environmental Assessment Coordinator (FEAC) for this screening.

This letter seeks, pursuant to the FCR, to identify the departments or agencies that may have obligations as responsible authorities or as federal authorities and to set a timetable for conducting a screening.

Timing of Assessment

The C-NLOPB requests that the screening be carried out in as timely a manner as possible, and propose the following schedule:

| | |
|---|---|
| Federal Coordination Request – determination of RA responsibilities | Response by June 17, 2009 |
| Review of draft EA | Response approximately 6 weeks after receipt of document. |
| Review of revised EA or addendum, if required | Response approximately 3 weeks after receipt of document. |
| Preparation of EA determination by Responsible Authority(s) | 1 weeks for completion (may commence during review of final EA or addendum); includes review of all drafts. |

CEA Act Federal Coordination Regulations - Section 5 Notification

- Pursuant to section 5 of the CEA Act Federal Coordination Regulations, the C-NLOPB requests that you review the attached information and inform the C-NLOPB by **June 17, 2009** of your determination pursuant to subsection 6(1) of the CEA Act Federal Coordination Regulations.
- If you determine that you are likely to require an environmental assessment of the project, please advise the C-NLOPB of any approvals or authorizations to be exercised by your department.
- If you determine that you are in possession of any specialist or expert information or knowledge pursuant to paragraph 6(1)(c) of the CEA Act Federal Coordination Regulations, please advise the C-NLOPB of the nature of that information or knowledge and the person to contact for assistance by **June 17, 2009**.

A "Faxback Response Form" has been provided for your convenience. If no response is received from you by the date indicated above, the C-NLOPB will assume that your department or agency has no responsibility to undertake an environmental assessment and is not in possession of specialist or expert information or knowledge.
