Subject: RE: Electromagnetic Geoservices Canada, Inc. - Western Newfoundland Controlled Source Electromagnetic (CSEM) Project, 2017

Hi Darren,

We do not have comments at this stage. We will assess the project description to determine whether or not we have relevant expertise to provide for this project at the impact study phase and will let you know as soon as possible.

However, given that there is no drilling involved, no explosives and no permanent structures, I think it is unlikely that we have any expertise to provide but this is to be confirmed in the near future.

Thanks

Good morning: I am emailing you today to enquire if you would like to submit a reply to this request, due this past November 25, 2016. Notwithstanding the clause in our letter stating that if no reply is received by the due date, I would like to offer the opportunity again. If you do wish to submit a reply then please indicate when a reply may be received.

Regards
Darren

Good day all: please see the attached project description, DRAFT Scoping Document and letter from the C-NLOPB requesting feedback. Please reply by close of business November 25, 2016.

If you have any questions please feel free to contact me.

Regards
Darren
