Subject: RE: Electromagnetic Geoservices Canada, Inc. - Western Newfoundland Controlled Source Electromagnetic (CSEM) Project, 2017

Hi Darren,

Transport Canada has reviewed the project description and has determined that all project vessels must comply with the applicable regulations under the Canada Shipping Act, 2001 (CSA 2001) and applicable International Maritime Organization (IMO) standards.

More specifically:

- Project vessels registered in Canada must comply with all applicable provisions of the Regulations pursuant to the CSA 2001. In addition, the operation must comply with provisions under the Maritime Occupational and Health Regulations pursuant to Part II of the Canada Labour Code.

Given the above advice, there is no need for TC-Environmental Affairs and Aboriginal Consultation Unit to be further involved in CNLOPB's environmental review process for this proposal. Please feel free to contact me if you have any questions.

Regards,

Environmental Officer, Environmental Affairs and Aboriginal Consultation Unit, Programs |
