Head of Americas Business Unit

Dear Lars:

File No: 56006-020-003/03

**Re: Electromagnetic Geoservices Canada Inc. (EMGS) Controlled Source Electromagnetic Survey in the Orphan Basin and South Bank Environmental Assessment**

---

The Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB), in consultation with the C-NLOPB's fishery and environmental review agencies, have reviewed the environmental assessment (EA) report, *EMGS 2022 Controlled-source Electromagnetic Survey* (Stantec Consulting Ltd. May 30, 2022).

The EA report does not satisfy all of the information requirements outlined in the Scoping Document provided to EMGS Canada Inc. on January 31, 2022. In order to satisfy the requirements of the *Canada-Newfoundland Atlantic Accord Implementation Act* and the *Canada-Newfoundland and Labrador Atlantic Accord Implementation Newfoundland and Labrador Act* and to complete a report on the C-NLOPB's determination at the conclusion of the assessment, the attached comments should be addressed.

You may contact me at your convenience to discuss these comments. I can be reached at 709-778-1482 or by email at [mross@cnlopb.ca](mailto:mross@cnlopb.ca).

Yours truly,

*Original signed by Melissa Moss*
