Dear Lars:

File No: 56006-020-003/03

**Re: Electromagnetic Geoservices Canada Inc. (EMGS) Controlled Source Electromagnetic Survey in the Orphan Basin and South Bank Environmental Assessment Addendum Review**

---

The Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB), in consultation with the C-NLOPB's fishery and environmental review agencies, have reviewed the environmental assessment (EA) addendum report, *EMGS 2022 Controlled-source Electromagnetic Survey Response to Regulator Comments* (Stantec Consulting Ltd. July 28, 2022).

The EA Addendum does not satisfy all of the information requirements and comments on the EA Report provided to EMGS on July 20, 2022. In order to satisfy the requirements of the *Canada-Newfoundland Atlantic Accord Implementation Act* and the *Canada-Newfoundland and Labrador Atlantic Accord Implementation Newfoundland and Labrador Act* and to complete a report on the C-NLOPB's determination at the conclusion of the assessment, the attached comment should be addressed.

You may contact me at your convenience to discuss these comments. I can be reached at 709-778-1482 or by email at [mmoss@cnlopb.ca](mailto:mmoss@cnlopb.ca).

Thank you,

DocuSigned by:
