Hi Darren,

Thanks for providing the project description and draft scoping document for review and input. I have no comments on the documents at this time.

I do however have a couple of questions, perhaps more specific for DFO. What are the regulations in the Marine Refuge that will allow the proponent to leave the anchors (that disintegrate in a year) on the ocean floor? Will they have to provide video footage and/or provide details of all of the locations of the anchors in the EA report to pre-determine any environmental effects.

Robyn

Hello all: please see the attached project description for a proposed controlled source electromagnetic survey (CSEM) for the Orphan Basin and South Bank as proposed by Electromagnetic Geoservices Canada (EMGS) Inc. I have also attached a DRAFT scoping document for your review and input as well as our letter requesting input. Please provide your response no later than **January 12, 2022**. If you have any questions please feel free to contact us.

Regards
Darren
