Hi: please see the attached comments on the EA Addendum.

In developing your response to the attached comments, include the information that addresses the error in the original EA Report contained on page 9 in Section 2.9 CSEM Streamer and on page 142 in Table 5.1 (see attached email from you dated June 11, 2014). You will need to include an explanation of the correction and how it could potentially change the effects assessment in the EA report submitted on March 17, 2014.

A revised EA Addendum which addresses the attached comments and the correction is required for review (1 week) and web posting.

If you have any further questions please feel free to contact us.

Regards  
Darren
