Darren Hicks  
Environmental Analyst  
Canada-Newfoundland and Labrador Offshore Petroleum Board  
140 Water Street, 5<sup>th</sup> Floor, TD Place  
St. John's

Mr. Hicks,

**Re: Electromagnetic Geoservices Canada Inc. East Canada CSEM Survey, 2014-18 Amendment**

Fish, Food and Allied Workers Union (FFAW-Unifor) would submit the following in connection with the "Amendment to the Environmental Assessment of EMGS East Canada CSEM Survey, 2014-2018". FFAW-Unifor engages in reviews and consultations with the Petroleum Industry on behalf of our far-reaching membership throughout the province of Newfoundland and Labrador.

In assessing the differences between the Amendment submitted March 2015 and April 2015, there would be no new comments arising. FFAW-Unifor does reserve to point out that any comments that may not have been addressed in the original EA process would remain. It is apparent that EMGS should strive to improve their process and procedures when it comes to doing direct consultation with the local stakeholders.

It remains of utmost importance that the proponent diligently pursues the consultation process with all other ocean users. This is especially of importance as this program has EMGS vessels operating within active harvesting areas and other petroleum exploration projects. The Petroleum Industry Liaison with FFAW-Unifor will remain available to assist in arranging consultation sessions specifically aimed at those active within the fishing industry.

Yours truly,

Jóhan Joensen  
Petroleum Industry Liaison
