**RE: Environmental Assessment Addendum and Amendment- Eastern Newfoundland Offshore, Geophysical, Geochemical, Environmental and Geotechnical Programs 2015-2024**

Dear Mr. Hicks:

Please find enclosed two copies of the revised addendum and amendment to ExxonMobil Environmental Assessment (EA) titled *Eastern Newfoundland Offshore Geophysical, Geochemical, Environmental and Geotechnical Programs 2015-2024*. This revised EA Addendum is provided as a supplement to the original EA Report, and provides responses that address the two rounds of comments provided to ExxonMobil by the C-NLOPB on September 30, 2015 and March 29, 2016.

Additionally, the EA addendum also provides an overview of a proposed modification to the Project Area, as compared to that which was described and assessed in the original (July 2015) EA Report. This involves a slight expansion of the northeastern portion of the proposed Project Area to account for changes in the identified Sectors (and thus possible future Call for Bids areas) that were defined by the C-NLOPB as of the time of initial Project planning at the beginning of 2015, as compared to those parcels that were finalized in the Board's eventual (March 2015) Call for Bids No. NL-15-01EN – Eastern Newfoundland Region.

If you require any additional information or would like to schedule a time to discuss this program further, please do not hesitate to contact myself [REDACTED] or [REDACTED] SSHE Manager ExxonMobil Canada Ltd, [REDACTED] at your convenience.

Sincerely, [REDACTED]

[REDACTED]  
Geoscience Supervisor
