Hi Darren,

At the present time, FFAW-Unifor has no objections to the temporal scope extension for this project with the mitigations in place, as committed in the amendment.

Thanks,  
Robyn

Good afternoon All: please see the attached amendment to the temporal scope of the above mentioned program. The EA Amendment assesses the environmental effects of extending the Project activities into December, 2017 through 2027 (from the current May to November, 2017 through 2027 timeframe). If no comments are received by November 23, 2017 then the C-NLOPB will assume none will be provided, earlier replies are welcome.

Further details on this project may be found at
