Re: Seabed sampling activities offshore Newfoundland and Labrador

Dear Mr. Hicks,

Fugro GeoSurveys, a division of Fugro Canada Corp., is pleased to submit the attached Environmental Assessment Report for a proposed integrated surficial geochemical survey project within the Canada - Newfoundland and Labrador offshore Area. The report has been compiled based on the final scoping document provided to us on 26-May-2017 and consultations with the fishing industry, as identified in the report.

Thank you for your attention to the Project, please feel free to contact me directly if you have any comments or require additional information.

Yours truly,

Todd Ralph
Project Manager
