Subject: GX Technology Canada Ltd. 2D Seismic, Gravity and Magnetic Survey for the Labrador Shelf Area, 2013 to 2015

Darren,

Environment and Climate Change Canada has reviewed the EA amendment for the above project. We note that the only relevant changes are an extension of the end-year and an extension of the length of the seismic lines. The proponent has committed to ensuring all mitigations previously committed to will be upheld. ECCC has no further comments.
