**Re: GX Technology Canada Ltd. 2D Seismic, Gravity and Magnetic Survey for the Labrador Shelf Area, 2013 to 2015 Environmental Assessment**

---

On April 2, 2013, GX Technology Canada Ltd. (GXT) submitted to the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) an environmental assessment report for proposed 2D seismic, gravity and magnetic surveys offshore Labrador and northern Newfoundland over a three-year period (2013 through 2015). The enclosed report "*Environmental Assessment of GXT's LabradorSPAN 2-D Seismic, Gravity and Magnetic Survey, 2013-2015*" (LGL March 2013) describes these activities for this area.

The environmental assessment report was completed in accordance with the scoping document prepared by the C-NLOPB on March 26, 2013.

Please review the enclosed environmental assessment report and forward comments to me no later than **May 22, 2013**. If you have any questions regarding the environmental assessment report, you may contact me (709-778-1431 or [dhicks@cnlopb.nl.ca](mailto:dhicks@cnlopb.nl.ca)).

Yours truly,
