Dear Mr. Kennedy:

File No: 48006-020-002/07

**GX Technology Canada Ltd. GrandSPAN Marine 2D Seismic, Gravity and Magnetic Survey,
2014 to 2018**

The Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB), in consultation with the Board's fishery and environmental review agencies, has reviewed the *GXT GrandSPAN 2D-3D Seismic, Gravity and Magnetic Survey, 2014 to 2019 Environmental Assessment Amendment* (ION GX Technology May 2019).

GX Technology Canada Ltd. (GXT) amended the March 2014 *Environmental Assessment of GX Technology Canada Ltd.'s GrandSPAN 2D Seismic, Gravity and Magnetic Survey, 2014-2018* and July 2014 Environmental Assessment (EA) Addendum, *GX Technology Canada Ltd.'s GrandSPAN 2D Seismic, Gravity and Magnetic Survey, 2014-2018 Revised Environmental Assessment Addendum* for a change in the geographic scope of the original EA to include an additional area to the north and to temporally extend the project to accommodate 2D seismic acquisition in 2019.

The EA Amendment Report provides a satisfactory assessment of environmental effects associated with these activities. The C-NLOPB is of the opinion that, taking into account the implementation of mitigation measures committed to by GXT during the EA, the project is not likely to cause significant adverse environmental effects.

If you have any questions, you may contact me (709-778-1455 or mmoss@cnlopbc.ca).

Yours truly,
