Re: GX Technology Canada Ltd. GrandSPAN Marine 2D Seismic, Gravity and Magnetic Survey, 2014 to 2018, Environmental Assessment

On March 17, 2014, GX Technology Canada Ltd. (GXT) submitted to the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) an environmental assessment report for proposed 2D seismic, gravity and magnetic surveys for the Southern Grand Banks area of the Newfoundland and Labrador Offshore Area from 2014 until 2018. The enclosed report "*Environmental Assessment of GX Technology Canada Ltd's GrandSPAN 2D Seismic, Gravity and Magnetic Survey, 2014-2018*" (AMEC March 2014) describes these activities for this area.

The environmental assessment report was completed in accordance with the scoping document prepared by the C-NLOPB on January 28, 2014.

Please review the enclosed environmental assessment report and forward comments to me no later than **April 29, 2014**. If you have any questions regarding the environmental assessment report, you may contact me (709-778-1431 or dhicks@cnlopb.nl.ca).

Yours truly,
