Dear Mr. Hicks:

**Re: 2015 Hebron – Environmental Assessment (EA) Update**

In support of the proposed fish survey and OLS pipeline placement proposed within the Hebron Field in 2015, and in accordance to guidance provided by the Environmental Affairs staff, enclosed is the 2015 EA Update to the 2011 Hebron Project Comprehensive Study Report (CSR).

The EA Update provides an overview of the scope of the proposed 2015 activities, reports on any changes to Species at Risk, provides an update to the commercial fisheries data in the offshore area relevant to the proposed project activities, and validates the environmental assessment conclusions of the Hebron Project CSR. Consultation with One Ocean and the FFAW Petroleum Liaison Officer was held in February 2015 regarding program activities and is summarized in the EA update.

Should you have any questions, or require further information, please contact [REDACTED]  
Environmental Lead [REDACTED], at your convenience.

Yours truly,

[REDACTED]  
Environment and Regulatory Manager
