Subject: RE: ExxonMobil Canada Properties Hebron Development Project

Darren,  
Environment and Climate Change Canada has no objection to the amendment provided that all waste material discharged into the marine environment is in compliance with the Offshore Waste Treatment Guidelines issued jointly by the National Energy Board, the Canada-Newfoundland and Labrador Offshore Petroleum Board and the Canada-Nova Scotia Offshore Petroleum Board, and in accordance with the requirements of the Fisheries Act, the Migratory Birds Convention Act, 1994 and any other applicable legislation.

I trust that this is satisfactory. If you have any questions please call or write.

Best regards,  
Glenn
