Subject: TRIM: RE: Hebron 2013 EA Update transmittal to Responsible Authorities

Darren,

EC has reviewed the EA Update as requested. Our only comment is that the update does not indicate the presence of a seabird observer onboard during seismic operations. Please seek clarification that a qualified seabird observer will be onboard and that observation reports will be transmitted to Environment Canada as per the mitigation and monitoring requirements specified in the CSR.

I trust that this is satisfactory.

Best regards,

Subject: Hebron 2013 EA Update transmittal to Responsible Authorities

Hello all: the C-NLOPB has received an EA Update from Exxon Mobil Canada Properties for proposed activities in 2013. As responsible authorities, the C-NLOPB requests that you review the attached EA Update and respond with any issues by May 17, 2013.

Cheers
Darren
