Hello Darren,

I have no comments with respect to addendum, as there is no mention of changes to the radio communication systems. A question for you, is there a continued need for my department's involvement in the Hebron EA process, knowing that impact of radio communication is virtually no existent, or to use the current terms ... radio communication system is unlikely to cause significant adverse environmental affects in this project?

Regards,

Hello all: the C-NLOPB has received an Addendum to the Hebron CSR. As responsible authorities, the C-NLOPB requests that you review the attached document and respond with any issues or comments by

close of business June 13, 2013. Please advise ASAP if you find that you will need longer and the date which comments will be submitted.

For your information the changes are identified in Section 2 Scope of Addendum on page 1.

Cheers

Darren
