Hi Darren,

We have no further comments on the project as it is a temporal extension. The same comments issued prior for the original temporal scope still apply but there are no additional points to be made.

We stress the importance of communication throughout the entire process and thank the Board for the opportunity to review the Husky Energy Drill Centre Construction Installation and Operation Program, CEAR No. 06-01-17410.

Good morning: this is an email reminder that comments on the EA Amendment for the Husky Energy Drill Centre Construction Installation and Operation Program, CEAR No. 06-01-17410 were due yesterday.

Even though I stated in my original correspondence that if no comments were received by May 24, 2016 the C-NLOPB would assume no comments would be submitted, if you have any comments please indicate when they will be submitted.

Regards
Darren
