Darren,

Our concerns have been adequately addressed.

We noticed the following on page 6 (page 24 of the pdf): "The updated 2016 numbers of pairs of seabirds nesting at key Eastern Newfoundland colonies are presented in Table 2. The 2017 updated numbers have been requested from the CWS but none have not yet been provided."

This confirms that the updated 2017 seabird colony numbers have since been sent to LGL.

Best regards,  
Glenn

Good morning All: Husky Energy has submitted responses to regulatory comments on their EA amendment, and a revised EA Amendment, to extend the temporal scope of the above mentioned program. The C-NLOPB is requesting that you review the attached document and reply by close of business January 9, 2018 if the responses to your department's comments are satisfactorily addressed.

Further details on this project may be found at
