Attention: Ms. Elizabeth Young

Dear Ms. Young:

Subject: Response to Comments on the Amendment of the Environmental Assessment of the Husky Delineation/Exploration Drilling Program for Jeanne d'Arc Basin Area, 2008-2017

In response to comments received on July 19, 2017, attached is a revised amendment of the environmental assessment (EA) to the Husky Delineation/Exploration Drilling Program for the Jeanne d'Arc Basin Area 2008-2017. The original EA assessed the potential environmental effects of up to 18 wells on any current or future license with the Project Area. There have been 11 wells completed to date.

Our application is to extend the temporal scope of the EA by three years, to December 31, 2020. There are no changes planned to the originally assessed activities or associated discharges, during the temporal extension.

Should you have any queries regarding this application, please do not hesitate to contact the undersigned at 724-6757 or David Pinsent at 724-3997.

Yours sincerely,

HUSKY OIL OPERATIONS LIMITED

Gareth Igloliorte,
HSEQ Manager
