File No.: 353.3
**Annual Reconciliation of EA
Scope vs Planned Activity Scope**

Dear Mr. Hicks:

Enclosed please find the Hibernia 2019 environmental assessment update titled *Environmental Assessment Update: Hibernia Project Operations 2019* (File No. Amec Fw TA1978313) dated April 10, 2019. This update reflects the outcome of a review of the work planned for 2019 and the reconciliation of this work scope with the scope of work considered in the existing Hibernia project related environmental assessments (Screening Report, Hibernia Drill Centres Construction and Operations, Jacques Whitford Ltd. (2009) and the Hibernia Development Project Environmental Impact Statement, Mobil Oil Canada Ltd. (1985)).

The report concludes the environmental effects predictions and significance determinations cited in the 2009 Hibernia Drill Centres Construction and Operations Program Screening Report and 1985 Hibernia Development Project Environmental Impact Statement are valid for the planned 2019 and beyond project activities.

If you have any questions or require additional information please contact me at your convenience.

Sincerely,

Kent Slaney
Environmental Advisor

Encl.
