Hibernia Management and Development Company Ltd. 2D/3D/4D Seismic Projects for the Hibernia Oil and Gas Production Field, 2013 to remaining life of field

On July 10, 2015, Hibernia Management and Development Company Ltd. (HMDC) submitted to the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) an amendment, *"Amendment to the Environmental Assessment of HMDC's 2D/3D/4D Seismic Projects, 2013-Life of Field"* (LGL July 2015), to the environmental assessment (EA) report multi-dimensional seismic program for the Hibernia Oil and Gas Production Field in the Newfoundland and Labrador Offshore. The enclosed report is an amendment to the February 2015 *"Environmental Assessment of HMDC's 2D/3D/4D Seismic Projects 2013-Life of Field Newfoundland Offshore Area."* The February 2015 document is an administrative consolidated report that includes all comments and changes to the project during the technical review of the proposed program. The scope for the original EA does not allow for the use of a sound velocity profiler.

The C-NLOPB requests that you review the enclosed EA Amendment and provide comments no later than **July 27, 2015**. If no response is received from you by the date indicated above, the C-NLOPB will assume that you have no comments.

If you have any questions regarding the EA Amendment, you may contact me (709-778-1431 or dhicks@cnlopb.ca).

Yours truly,
