Subject: RE: Hibernia Management and Development Company 2D/3D/4D Seismic Projects for the Hibernia Oil and Gas Production Field, 2013 to End of Life of the Project

Good Afternoon Darren,

Transport Canada has reviewed the project description and has determined that all project vessels must comply with the applicable regulations under the Canada Shipping Act, 2001 (CSA 2001) and applicable International Maritime Organization (IMO) standards.

More specifically:

- Project vessels registered in Canada must comply with all applicable provisions of the Regulations pursuant to the CSA 2001. In addition, the operation must comply with provisions under the Maritime Occupational and Health Regulations pursuant to Part II of the Canada Labour Code;
- Project vessels registered in a foreign country must apply for a Coasting Trade Permit issued under the Coasting Trade Act. This means that the vessel would comply with all applicable regulations under IMO Conventions. The Coasting Trade Permit is actually issued by Canadian Customs in consultation with CTA and TC.

Given the above advice, there is no need for TC-Environmental Affairs to be further involved in CNLOPB's environmental review process for this proposal. Please feel free to contact me if you have any questions.

Cheers,
Randy

Subject: Hibernia Management and Development Company 2D/3D/4D Seismic Projects for the Hibernia Oil and Gas Production Field, 2013 to End of Life of the Project

Hello all: we have received a project description from Hibernia Management and Development Company for 2D/3D/4D seismic projects for the Hibernia oil and gas production field. I have attached the project description, draft scoping document and our letter requesting comments by February 11, 2013. If you have any questions please feel free to contact myself.

Cheers
Darren
