**Re: Husky Energy Labrador Shelf Seismic Program 2009 - 2017
Federal Coordination Regulations Section 5 Notification**

On January 19, 2009, Husky Energy submitted to the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) a project description for a proposed seismic program on the Labrador Shelf. The C-NLOPB determined that the Project would require an authorization pursuant to Section 138(1)(a) of the *Canada-Newfoundland Atlantic Accord Implementation Act* and Section 134(1)(a) of the *Canada-Newfoundland and Labrador Atlantic Accord Implementation Newfoundland and Labrador Act*.

The attached project description outlines the activities proposed for the seismic program. An initial 2D seismic survey will commence in 2009 and subsequent 2D, 3D and geohazard surveys will be conducted over the remaining eight years.

The C-NLOPB has determined, in accordance with paragraph 3(1)(a) of the *Regulations Respecting the Coordination by Federal Authorities of Environmental Assessment Procedures and Requirements* (FCR), that an environmental assessment of the project under section 5 of the CEA Act is required. Pursuant to Section 12.2(2) of CEA Act, the C-NLOPB is assuming the role of the Federal Environmental Assessment Coordinator (FEAC) for this screening.

This letter seeks, pursuant to the FCR, to identify the departments or agencies that may have obligations as responsible authorities or as federal authorities and to set a timetable for conducting a screening, and seek comments on the attached draft scoping document.

Timing of Assessment

The C-NLOPB requests that the screening be carried out in as timely a manner as possible, and propose the following schedule:

| | |
|---|---|
| Federal Coordination Request – determination of RA responsibilities | Response by March 2, 2009 |
| Review of draft EA | Response approximately 6 weeks after receipt of document. |
| Review of revised EA or addendum, if required | Response approximately 2 weeks after receipt of document. |
| Preparation of EA determination by Responsible Authority(s) | 2 weeks for completion (may commence during review of final EA or addendum); includes review of all drafts. |

CEA Act Federal Coordination Regulations - Section 5 Notification

- Pursuant to section 5 of the CEA Act Federal Coordination Regulations, the C-NLOPB requests that you review the attached information and inform the C-NLOPB by **March 2, 2009** of your determination pursuant to subsection 6(1) of the CEA Act Federal Coordination Regulations.
- If you determine that you are likely to require an environmental assessment of the project, please advise the C-NLOPB of any approvals or authorizations to be exercised by your department or agency.
- If you determine that you are in possession of any specialist or expert information or knowledge pursuant to paragraph 6(1)(c) of the CEA Act Federal Coordination Regulations, please advise the C-NLOPB of the nature of that information or knowledge and the person to contact for assistance by **March 2, 2009**.

A "Faxback Response Form" has been provided for your convenience. If no response is received from you by the date indicated above, the C-NLOPB will assume that your department or agency has no responsibility to undertake an environmental assessment and is not in possession of specialist or expert information or knowledge.

Species at Risk - Section 79(1) Notification of Competent Minister

Pursuant to Section 79(1) of the *Species at Risk Act (SARA)*, the C-NLOPB hereby informs the Minister of Environment and the Minister of Fisheries and Oceans (the Competent Ministers) that the following Schedule 1 Species are likely to be in the project area under the jurisdiction of the C-NLOPB. A determination of the likelihood of adverse affects on these species will be undertaken during the screening process.

- Endangered: Turtle, Leatherback (*Dermochelys coriacea*)
Whale, Blue (*Balaenoptera musculus*)
Curlew, Eskimo (*Numenius borealis*)
- Threatened: Wolffish, Northern (*Anarhichas denticulatus*)
Wolffish, Spotted (*Anarhichas minor*)
- Special Concern: Wolffish, Atlantic (*Anarhichas lupus*)
Gull, Ivory (*Pagophila eburnea*)
Whale, Fin (*Balaenoptera physalus*)

If you have any questions on the attached, or wish to discuss the above, I may be reached at 709-778-4232 or via email at <eyoung@cnlopb.nl.ca>.

Yours truly,

**Federal Coordination Regulations
Section 6 - Record of Determination**

Project Title: Labrador Shelf Seismic Program, 2009-2017

Location: Labrador Shelf

Proponent: Husky Energy

FEDERAL AUTHORITY: _____

NAME & TITLE: _____

SIGNATURE: _____ DATE: _____

In accordance with the Section 6 of the Federal Coordination Regulations, under the *Canadian Environmental Assessment Act (CEAA)*, the Federal Authority identified above, has reviewed the project description and advises you of the following:

(a) it is **likely** to require an environmental assessment of the project

Trigger Proponent Funding
 Land Transfer Law List

Law List Trigger: _____

(b) it is **not likely** to require an environmental assessment of the project

(c) it is **in possession** of specialist or expert information or knowledge that is necessary to conduct the environmental assessment of the project

OR

(d) additional information is required to make a determination

If the answer to (d) is "yes", the Regulations require that the additional information be requested within 10 days after making the determination.

Identify the contact person for the environmental assessment, if different from above.

Name & Title: _____

Address: _____

Telephone/Fax: _____

e-mail: _____

Please return via fax, by **March 2, 2009**, to:
Canada-Newfoundland and Labrador Offshore Petroleum Board, attention: Elizabeth Young
