On March 4, 2010, Husky Energy submitted to the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) an environmental assessment report for a 2-D seismic program for the Labrador Shelf. The enclosed report "*Labrador Seismic Program - Environmental Assessment*" describes 2-D seismic surveys over Exploration License (EL) 1106 and EL1108. The C-NLOPB is conducting a screening, pursuant to the *Canadian Environmental Assessment Act* (CEA Act), of the proposed Project.

The environmental assessment report was completed in accordance with the scoping document prepared by the C-NLOPB on April 2, 2009. A copy is enclosed for your information.

Please review the enclosed environmental assessment report and forward comments to me no later than **April 15, 2010**. If you have any questions regarding the environmental assessment report, you may contact me (709-778-1431 or dhicks@cnlopb.nl.ca).

Yours truly,
