**Re: Husky Energy Sydney Basin Offshore Area - Seismic Survey Program 2010-2018
Federal Coordination Regulations Section 5 Notification**

On August 11, 2009, Husky Energy submitted to the Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) a project description for a proposed 2D and 3D seismic survey program and follow-up geohazard surveys offshore southern Newfoundland (the Project). The C-NLOPB determined that the Project would require an authorization pursuant to Section 138(1)(a) of the *Canada-Newfoundland Atlantic Accord Implementation Act* and Section 134(1)(a) of the *Canada-Newfoundland and Labrador Atlantic Accord Implementation Newfoundland and Labrador Act*.

The attached project description outlines the activities proposed for the seismic program. A 2D and 3D marine seismic survey is planned on Exploration Licence (EL) 1115 extending across the jurisdictional boundary between the Canada-Newfoundland and Labrador and the Canada-Nova Scotia Offshore Petroleum Boards. The draft scoping document has been attached for your information.

The C-NLOPB has determined, in accordance with paragraph 3(1)(a) of the *Regulations Respecting the Coordination by Federal Authorities of Environmental Assessment Procedures and Requirements* (FCR), that an environmental assessment of the project under section 5 of the CEA Act is required. Pursuant to Section 12.2(2) of CEA Act, the C-NLOPB is assuming the role of the Federal Environmental Assessment Coordinator (FEAC) for this screening.

This letter seeks, pursuant to the FCR, to identify the departments or agencies that may have obligations as responsible authorities or as federal authorities and to set a timetable for conducting a screening.

Timing of Assessment

The C-NLOPB requests that the screening be carried out in as timely a manner as possible, and propose the following schedule:

Federal Coordination Request – determination of RA responsibilities	Response by August 27, 2009
Review of draft EA	Response approximately 6 weeks after receipt of document.
Review of revised EA or addendum, if required	Response approximately 3 weeks after receipt of document.
Preparation of EA determination by Responsible Authority(s)	3 weeks for completion (may commence during review of final EA or addendum); includes review of all drafts.

CEA Act Federal Coordination Regulations - Section 5 Notification

- Pursuant to section 5 of the CEA Act Federal Coordination Regulations, the C-NLOPB requests that you review the attached information and inform the C-NLOPB by **August 27, 2009** of your determination pursuant to subsection 6(1) of the CEA Act Federal Coordination Regulations.
- If you determine that you are likely to require an environmental assessment of the project, please advise the C-NLOPB of any approvals or authorizations to be exercised by your department.
- If you determine that you are in possession of any specialist or expert information or knowledge pursuant to paragraph 6(1)(c) of the CEA Act Federal Coordination Regulations, please advise the C-NLOPB of the nature of that information or knowledge and the person to contact for assistance by **August 27, 2009**.

A "Faxback Response Form" has been provided for your convenience. If no response is received from you by the date indicated above, the C-NLOPB will assume that your department or agency has no responsibility to undertake an environmental assessment and is not in possession of specialist or expert information or knowledge.

Species at Risk - Section 79(1) Notification of Competent Minister

Pursuant to Section 79(1) of the *Species at Risk Act (SARA)*, the C-NLOPB hereby informs the Minister of Environment and the Minister of Fisheries and Oceans (the Competent Ministers) that the following Schedule 1 Species are likely to be in the project area under the jurisdiction of the C-NLOPB. A determination of the likelihood of adverse affects on these species will be undertaken during the screening process.

- Endangered: Turtle, Leatherback (*Dermochelys coriacea*)
Whale, Blue (*Balaenoptera musculus*)
Whale, North Atlantic right (*Eubalaena glacialis*)
Gull, Ivory (*Pagophila eburnea*)
- Threatened: Wolffish, Northern (*Anarhichas denticulatus*)
Wolffish, Spotted (*Anarhichas minor*)
Whale, Beluga (*Delphinapterus leucas*) (St. Lawrence Estuary population)
- Special Concern: Wolffish, Atlantic (*Anarhichas lupus*)
Whale, Fin (*Balenoptera physalus*)
Whale, Sowerby's beaked (*Mesoplodon bidens*)
Cod, Atlantic (*Gadus morhua*)

If you have any questions on the attached, or wish to discuss the above, I may be reached at 709-778-4232 or via email at <eyoung@cnlopb.nl.ca>.

Yours truly,

**Federal Coordination Regulations
Section 6 - Record of Determination**

Project Title: Marine Seismic Profiling on EL 1115 and in Adjacent Areas

Location: Sydney Basin, Southern NL

Proponent: Husky Energy

FEDERAL AUTHORITY: _____

NAME & TITLE: _____

SIGNATURE: _____ DATE: _____

In accordance with the Section 6 of the Federal Coordination Regulations, under the *Canadian Environmental Assessment Act* (CEAA), the Federal Authority identified above, has reviewed the project description and advises you of the following:

(a) it is **likely** to require an environmental assessment of the project ☐

Trigger	<input type="checkbox"/>	Proponent	<input type="checkbox"/>	Funding
	<input type="checkbox"/>	Land Transfer	<input type="checkbox"/>	Law List

Law List Trigger: _____

(b) it is **not likely** to require an environmental assessment of the project ☐

(c) it is **in possession** of specialist or expert information or knowledge that is necessary to conduct the environmental assessment of the project ☐

OR

(d) additional information is required to make a determination ☐

If the answer to (d) is "yes", the Regulations require that the additional information be requested within 10 days after making the determination.

Identify the contact person for the environmental assessment, if different from above.

Name & Title: _____

Address: _____

Telephone/Fax: _____

e-mail: _____

Please return via fax, by **August 27, 2009**, to:
