Introduction to Info Source

Info Source: Sources of Federal Government and Employee Information provides information about the functions, programs, activities and related information holdings of government institutions subject to the Access to Information Act and the Privacy Act. It provides individuals and employees of the government (current and former) with relevant information to access personal information about themselves held by government institutions subject to the Privacy Act and to exercise their rights under the Privacy Act.

The Introduction and an index of institutions subject to the Access to Information Act and the Privacy Act are available centrally.

The Access to Information Act and the Privacy Act assign overall responsibility to the President of Treasury Board (as the designated Minister) for the government-wide administration of the legislation.

Background

The Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB) was created and given authority to regulate the Newfoundland and Labrador offshore oil and gas industry in 1985 as a result of the signing of the Canada-Newfoundland and Labrador Atlantic Accord Implementation Act, between the federal and provincial governments. The C-NLOPB oversees Operator activity for legislative and regulatory compliance in areas of offshore safety, environmental protection, resource management and industrial benefits.

For more information please visit the About Us section of the C-NLOPB website.

The authority for the C-NLOPB is derived from the Canada-Newfoundland and Labrador Atlantic Accord Implementation Newfoundland and Labrador Act, R.S.N.L. 1990, c. C-2 and the Canada-Newfoundland and Labrador Atlantic Accord Implementation Act, S.C. 1987, c. 3 (Accord Acts). The Legislation and Guidance section of the Board's website provides access to the Regulations and Guidelines relevant to the C-NLOPB.

The C-NLOPB reports to Parliament through the Federal Minister of Natural Resources Canada in Ottawa, Ontario, and the Provincial Legislature through the Minister of Natural Resources in St. John’s, Newfoundland and Labrador. The C-NLOPB prepares an Annual Report which is presented to each minister and parliament annually.

The C-NLOPB Offices are located in St. John’s, Newfoundland and Labrador.

Responsibilities

Through the implementation of its mandate, the role of the C-NLOPB is to facilitate the exploration for and development of the hydrocarbon resources in the Newfoundland and Labrador Offshore Area. The C-NLOPB is responsible for regulation of offshore exploration and production activities having regard for worker safety, environmental protection, and conservation of the hydrocarbon resources in accordance with good oilfield practice; Management of offshore land rights; assessment of the resource potential of the offshore area; and regulation of operators' statutory obligations and agreements with governments to provide economic and social benefits to Canada, and in particular to Newfoundland and Labrador.

Institutional Functions, Programs and Activities

Offshore Health and Safety Oversight

Offshore Safety Oversight Program

The Board monitors the safety of offshore petroleum exploration, development, and production activities to determine that risks have been reduced to a level that is as low as reasonably practical. The Board bases its safety policies and programs on a goal-oriented regulatory approach (where possible); a risk management approach; and workforce participation and cooperation among parties. The Board determines the adequacy of operators' safety management systems; conducts audits; confirms that installations have valid Certificates of Fitness; conducts investigations; and prosecutes violations of occupational health and safety legislation.

Offshore Work Authorization Activities

Description: The C-NLOPB has the responsibility under the Drilling and Production regulations pursuant to the Accord Acts to authorize work activities in the Newfoundland and Labrador Offshore Area. This bank contains information relating to development and production activities including: operating licenses; engineering research, feasibility studies or experimental projects; development applications for
offshore petroleum projects; status of development or production operation activities; diving program approvals; production operation authorization; certificates of fitness; and letters of compliance.

Information relating to exploration and development drilling activities including: drilling authorizations and approvals, final well reports (well history documents), and daily and weekly status of drilling operation activities. Information relating to the occupational health and safety of workers employed in the exploration, production, conservation, processing or transportation of petroleum, including procedures, training requirements and safety equipment; operations, inspections and audits on MODUs and standby vessels;

**Document Types:** Audits, Assessments and Inspections, Plans, Approvals and Authorizations, Certificates of Fitness, Investigations.

**Format:** Paper and Electronic

**Record Number:** C-NLOPB EAD 075

---

**Certification of Diving Personnel**

**Description:** This bank contains information received from divers and other diving personnel seeking certification by the Board, as well as information regarding such certification and related correspondence. Certain applications are supported by medical certificates.

The C-NLOPB has the responsibility under the **Newfoundland Offshore Area Petroleum Diving Regulations** pursuant to the **Accord Acts** respecting the diving operations conducted in the Newfoundland and Labrador Offshore Area in connection with the exploration or drilling for or the production, conservation, processing or transportation of petroleum activities by reviewing the qualifications of divers and issuing diving certificates and granting authorizations for diving programs.

The Diving Regulations require that Divers, Diving Supervisor and other specified personnel, engaged in petroleum diving operations must hold a valid certificate issued by the C-NLOPB Chief Safety Officer, who has jurisdiction pursuant to the regulations. The legislation provides for the Chief Safety Officer to authorize the use of equivalent measures and standards in lieu of any required by regulations. Thus diving personnel may alternatively hold a certificate issued on the basis of training and experience that is equivalent to that specified in the regulations.

Effective March 31, 2003 the Boards ceased issuing certificates pursuant to the diving regulations. In accordance with the legislation and with the terms of Memoranda of Understanding between the Boards and the Diver Certification Board of Canada (DCBC) the C-NLOPB accepted certificates issued by the DCBC. Valid certificates issued prior to March 31, 2003 are accepted by the Board.

**Class of Individuals:** Individuals seeking certification as divers or other diving personnel.

**Purpose:** To provide a record of the qualifications and experience of divers and other diving personnel for purposes of certification and to record such certifications.

**Consistent Uses:** Information may be shared with other agencies or authorities that certify diving personnel in other jurisdictions. The C-NLOPB has entered into a Memorandum of Understanding with the Diver Certification Board of Canada, in relation to the Certification of Commercial Divers.

**Retention and Disposal Standards:** Information is retained in an individual’s file until he or she reaches the age of 70 and is thereafter destroyed, provided that at least two years have elapsed since the last administrative action.

**Related Record Number:** C-NLOPB EAD 075
**TBS Registration:** 004347
**RDA:** 2005/006
**Bank Number:** C-NLOPB PPU 020

---

**Environmental Protection and Assessment**

**Offshore Environmental Protection and Assessment Program**

The Board’s environmental protection program has two aspects: protection of offshore operations from the environment; and protection of the environment. The Board confirms that Operators adhere to the Canadian Environmental Assessment Act; conducts strategic environmental assessments; enforces Operators' compliance with approved Environmental Protection Plans, promotes adoption of best available technologies to minimize environmental impacts; conducts investigations; and prosecutes violations of environmental protection legislation. To meet its mandate of protection from the environment, the Board confirms that Operators have considered the potential for extreme weather and environmental conditions which are possible in the Newfoundland and Labrador Offshore Area and incorporated the management of those risks in facility design and safety plans and procedures to protect their workers and equipment.
Contingency Planning and Investigation activities

**Description:** Information relating to accident/incident reports, investigations and analysis; contingency plans arising as a result of exploration, development and production activities; safety committee meetings; and exercises and drills. Information relating to the protection of offshore operations from physical environmental risks, and to the protection of the environment from the effects of offshore oil and gas activities, including: offshore environmental assessments and reviews; environmental contingency planning; physical environmental data; environmental protection exercises; marine pollution incidents; and environmental research and development projects.

**Document Types:** Environmental Audits, Oil Spills, Exercises and Drills, Contingency Planning, Annual Environmental Reports, Environmental Effects Monitoring Reports, Environmental Protection Plans, Daily Operations Reports.

**Format:** Paper and Electronic

**Record Number:** C-NLOPB EAD 076

Management and Conservation of Petroleum Resources

**Hydrocarbon Resource Assessment and Management Program**

This program deals with all aspects of oil and gas exploration and development in the Newfoundland and Labrador Offshore Area. This would include the evaluation of undiscovered resource potential of the area, determining the significant and commercial discovery areas; and evaluation of prospective areas for inclusion in the Land Tenure Program (Call for Bids). Staff assess and approve operators' proposed exploitation schemes for depletion of oil and gas pools, approve Development Plans and rates of oil and gas production; review of well evaluation programs, audits flow measurement systems and oversees the reporting of production volumes. Conducts an evaluation of enhanced recovery projects; monitoring field performance; and conducts reservoir performance studies. The goal is to maximize recovery of the resource in accordance with approved plans and good oil field practice.

The Accord Acts require that Operators give geological samples and geo-scientific information gathered during offshore exploration and production to the Board for curation. The Board provides public access to non-privileged geo-scientific information through its Information Resources Centre to foster continuing exploration activity and research and to build a knowledge base for the offshore area.

**Resource Assessment and Management Activities**

**Description:** Information relating to the development activities of each of the producing fields. Annual production reports submitted by operators, production logs, and annual pressure surveys; auditing of flow meters used on offshore installations along with information relating to the results of geophysical and geological surveys and exploratory and development drilling, such as seismic, gravimetric, magnetic and geochemical surveys and well histories. This data includes well materials (cuttings, cores, and fluids) sampled during the drilling. Information relating to discovered oil and gas resource estimates; results of well evaluation programs, including core analysis, well logs, fluid analysis and well test data; conservation and enhanced recovery projects, reservoir performance and productive capacity.

**Document Types:** Applications and Approvals, Audits, Reports, Well Logs, Samples, Maps and Charts, Well Logs, Samples, Navigation Data, Seismic Lines, Reservoir Simulation and Modeling Data.

**Format:** Paper, Electronic, Mylar, Microfilm

**Record Number:** C-NLOPB RED 080

**Issuance of Offshore Licenses**

**Land Tenure Program**

The Board manages the issuance of exploration rights through a call for bids; and administers exploration, significant discovery and production licenses. The Board maintains a public registry of documents relating to license interests and related financial instruments.

**Land Registry Activities**

**Description:** Information relating to the issuance and administration of oil and gas exploration and production rights on offshore Newfoundland and Labrador, including the terms and conditions of exploration, significant discovery and production licences; registration of interests held and transferred; calls for nominations; calls for bids; security and bid deposits and allowable expenditure schedules; work expenditure reports; rental reports; and significant discovery declarations and areas.

**Document Types:** Applications, Documents, Approvals, Navigation Data, Seismic Lines, Land Holdings, Maps and Charts.

**Format:** Paper, Electronic, Mylar, Microfilm

**Record Number:** C-NLOPB EXD 055
Canada-Newfoundland and Labrador Employment and Benefits

Industrial Benefits Oversight Program

The Board ensures that operators have approved Benefits Plans (as defined in the Accord Acts) in place and are adhering to their Plans. This is accomplished by approving Canada-Newfoundland and Labrador Benefits Plans for exploration, development and production activities and monitoring operators' compliance with specific requirements such as: the level of decision-making resident in the Operator's office in the Province; giving first consideration to residents of the Province for training and employment opportunities; expending funds in the Province for research and development and education and training; providing full and fair opportunity and first consideration to goods and services provided from within Newfoundland and Labrador within a competitive framework; and access to employment and business opportunities for disadvantaged individuals (women, aboriginal groups, persons with disabilities and members of visible minorities).

Benefits Plan Review Activities

Description: Information relating to the review, approval and implementation of Canada-Newfoundland and Labrador benefit plans submitted by oil and gas operators.

Document Types: Plans, Contracts, Employment Summaries, Benefits

Format: Paper, Electronic

Record Number: C-NLOPB CBD 030

Internal services

Internal Services are groups of related activities and resources that are administered to support the needs of programs and other corporate obligations of an organization. These groups are: Acquisitions; Communications Services; Financial Management; Human Resources Management; Information Management; Information Technology; Legal Services; Management and Oversight Services; Material; Real Property; Travel and Other Administrative Services. Internal Services include only those activities and resources that apply across an organization and not to those provided specifically to a program.

Acquisitions

Acquisition Services involve activities undertaken to acquire a good or service to fulfill a properly completed request (including a complete and accurate definition of requirements and certification that funds are available) until entering into or amending a contract.

- Procurement and Contracting Class of Record
  - Professional Services Contracts Personal Information Bank – C-NLOPB PSU 912

Communications Services

Communications Services involve activities undertaken to ensure that Government of Canada communications are effectively managed, well-coordinated and responsive to the diverse information needs of the public. The communications management function ensures that the public – internal or external – receives government information, and that the views and concerns of the public are taken into account in the planning, management and evaluation of policies, programs, services and initiatives.

- Communications Class of Record
  - Internal Communications Personal Information Bank – C-NLOPB PSU 915
  - Public Communications Personal Information Bank – C-NLOPB PSU 914

Financial Management

Financial Management Services involve activities undertaken to ensure the prudent use of public resources, including planning, budgeting, accounting, reporting, control and oversight, analysis, decision support and advice, and financial systems.

- Financial Management Class of Record
  - Accounts Payable Personal Information Bank – C-NLOPB PSU 931
  - Accounts Receivable Personal Information Bank – C-NLOPB PSU 932
  - Acquisition Cards Personal Information Bank – C-NLOPB PSU 940

Human Resources Management

Human Resources Management Services involve activities undertaken for determining strategic direction, allocating resources among services and processes, as well as activities relating to analyzing exposure to risk and determining appropriate countermeasures. They ensure that the service operations and programs of the federal government comply with applicable laws, regulations, policies, and/or plans.

Additional Information

Please see the Instructions provided by the Treasury Board Secretariat for information on formal Access to Information procedures under the provisions of the Access to Information Act and the Privacy Act.

The following summarizes how to make a formal ATIP request.

Mail your letter or Access to Information Request Form (Access to Information Act) or Personal Information Request Form (Privacy Act), along with any necessary documents (such as consent or the $5.00 application fee for a request under the Access to Information Act) to the following address:

Access to Information and Privacy Coordinator
Trevor Bennett
Canada-Newfoundland and Labrador Offshore Petroleum Board
The Tower Corporate Campus
240 Waterford Bridge Road
Suite 7100, West Campus Hall  
St. John’s NL  
A1E 1E2  
Telephone: 709-778-1474  
Facsimile: 709-778-1473  
Email: tbennett@cnlopb.ca

Please note: Each request made to The Canada-Newfoundland and Labrador Offshore Petroleum Board under the Access to Information Act must be accompanied by an application fee of $5.00, cheque or money order made payable to the Receiver General for Canada.

The Government of Canada encourages the release of information through requests outside of the ATIP process. You may wish to consult the Canada-Newfoundland and Labrador Offshore Petroleum Board’s completed Access to Information (ATI) summaries posted on open.canada.ca

You may also make an informal request through the open canada website or by contacting:

Canada-Newfoundland and Labrador Offshore Petroleum Board  
The Tower Corporate Campus  
240 Waterford Bridge Road  
Suite 7100, West Campus Hall  
St. John’s NL
