Laurentian Sub-basin Exploration Drilling Program Environmental Assessment. LGL Rep. SA832. Rep. by LGL Limited with Oceans Limited, Canning & Pitt Associates, Inc., Provincial Airlines Limited, SL Ross Environmental Research Ltd., Calixte Environmental Management and PAL Environmental Services, St. John's, NL. for ConocoPhillips Canada Resources Corporation, Calgary, Alberta. 408 p. + appendices.

# Table of Contents

Page

Table of Contents .....	ii
List of Figures .....	vii
List of Tables .....	xi
1.0 Introduction.....	1
1.1. Relevant Legislation and Regulatory Approvals .....	1
1.2. Consultations.....	2
1.3. Contacts.....	3
1.4. Document Organization .....	4
2.0 Project Description.....	5
2.1. Name and Location .....	5
2.2. The Operator .....	6
2.2.1. Partners .....	7
2.3. Project Overview .....	8
2.3.1. Alternatives to Project/Alternative Means within Project .....	9
2.3.2. Project Phases .....	9
2.3.3. Project Scheduling .....	9
2.3.4. Site Plans .....	9
2.3.5. Personnel.....	9
2.3.6. Mobile Offshore Drilling Units .....	10
2.3.7. Geophysical Surveys.....	10
2.3.8. Marine Support Vessels .....	11
2.3.9. Helicopter Support.....	11
2.3.10. Shore Base Facilities.....	11
2.3.11. Drilling.....	11
2.3.12. Well Abandonment .....	13
2.3.13. Emissions and Waste Discharges .....	13
2.3.14. Cement .....	13
2.3.15. Produced Water.....	14
2.3.16. Grey/Black Water .....	14
2.3.17. Machinery Space Discharges.....	14
2.3.18. Bilge Water .....	14
2.3.19. Deck Drainage .....	14
2.3.20. Ballast Water.....	14
2.3.21. Cooling Water.....	14
2.3.22. Solid Waste .....	15
2.3.23. Air Emissions.....	15
2.3.24. Miscellaneous .....	15
2.3.25. Waste Management Plan .....	15
2.4. Multiple Ocean Uses.....	16
3.0 Physical Environment .....	18
3.1. Geological Overview .....	18
3.1.1. Physiography .....	18
3.1.2. Quaternary Sediments.....	22

3.1.3.	Seismicity.....	26
3.1.4.	Slope Stability.....	31
3.2.	Weather Conditions .....	32
3.2.1.	General Description of Weather Systems.....	32
3.2.2.	Tropical Cyclones.....	34
3.2.3.	Wind Conditions.....	36
3.2.4.	Wave Climate .....	41
3.2.5.	Interannual Variability and Short Term Climate Trends.....	47
3.2.6.	Air and Sea Surface Temperatures .....	50
3.2.7.	Precipitation.....	53
3.2.8.	Visibility .....	54
3.3.	Water Properties.....	55
3.3.1.	Newfoundland Shelf Region.....	57
3.3.2.	Laurentian Channel.....	57
3.3.3.	Slope (Laurentian Fan) .....	63
3.3.4.	Water Properties Variability .....	66
3.3.5.	Water Masses.....	67
3.4.	Currents.....	74
3.4.1.	Characteristics of the General Circulation.....	74
3.4.2.	Current Data Available .....	78
3.4.3.	Currents on the Continental Slope.....	80
3.4.4.	Currents Outside St. Pierre Bank.....	82
3.5.	Wind and Wave Extremal Analysis.....	92
3.5.1.	Extreme Value Estimates for Winds.....	93
3.6.	Extreme Value Estimates for Waves .....	93
3.6.1.	Joint Probability of Extreme Wave Heights and Spectral Peak Periods.....	96
3.7.	Sea-Ice and Icebergs .....	98
3.7.1.	Databases .....	98
3.7.2.	Sea Ice.....	99
3.7.3.	Icebergs.....	102
4.0	Biological Environment .....	107
4.1.	Species at Risk .....	107
4.2.	Sensitive/Special Areas.....	110
4.3.	Ecosystem .....	110
4.4.	Plankton .....	110
4.5.	Benthos .....	111
4.5.1.	Deepwater Benthic Sampling at Other Locations.....	114
4.6.	Important Fish and Invertebrates .....	122
4.6.1.	Marine Habitats.....	122
4.6.2.	Species Profiles.....	122
4.7.	Commercial Fisheries .....	139
4.7.1.	Fisheries Data Sources.....	139
4.7.2.	Overview.....	140
4.7.3.	Historical Fisheries (Adjacent Unit Areas).....	143
4.7.4.	Study Area Commercial Fisheries .....	147
4.7.5.	Groundfish .....	158
4.7.6.	Fishing Gear.....	174

	4.7.7.	Fishing Vessels .....	179
	4.7.8.	DFO Research Vessel and Industry Surveys .....	180
4.8.		Seabirds .....	185
	4.8.1.	Procellariidae (Fulmars and Shearwaters) .....	187
	4.8.2.	Hydrobatidae (Storm-Petrels) .....	189
	4.8.3.	Sulidae (Gannets) .....	190
	4.8.4.	Stercorariidae (Skuas and Jaegers) .....	192
	4.8.5.	Laridae (Gulls) .....	194
	4.8.6.	Sterninae (Terns) .....	196
	4.8.7.	Alcidae (Auks, Murres and Puffins) .....	197
	4.8.8.	Bird Species at Risk .....	199
4.9.		Marine Mammals and Sea Turtles .....	200
	4.9.1.	Whales and Dolphins .....	200
	4.9.2.	Seals .....	219
	4.9.3.	Sea Turtles .....	222
5.0		Effects Assessment of Routine Activities .....	226
5.1.		Assessment Methodology .....	226
	5.1.1.	Scoping .....	226
	5.1.2.	Valued Ecosystem Components (VECs) .....	227
	5.1.3.	Boundaries .....	228
	5.1.4.	Effects Assessment Procedures .....	229
	5.1.5.	Identification and Evaluation of Potential Effects .....	229
	5.1.6.	Classifying Anticipated Environmental Effects .....	230
	5.1.7.	Mitigation .....	231
	5.1.8.	Application of Evaluation Criteria for Assessing Environmental Effects .....	231
	5.1.9.	Cumulative Effects .....	232
	5.1.10.	Integrated Residual Environmental Effects .....	233
	5.1.11.	Significance Rating .....	233
	5.1.12.	Level of Confidence .....	233
	5.1.13.	Likelihood of Occurrence of Significant Effects .....	234
5.2.		Effects of the Environment on the Project .....	234
	5.2.1.	Physical Environment .....	234
	5.2.2.	Biological Environment .....	235
	5.2.3.	Anthropogenic Environment .....	235
	5.2.4.	Mitigation of Effects of the Environment on the Project .....	236
	5.2.5.	Assessment of Effects on the Project .....	242
5.3.		Routine Project Activities .....	243
	5.3.1.	Drilling Activities .....	244
	5.3.2.	Light .....	248
	5.3.3.	Air Emissions .....	248
	5.3.4.	Sound .....	249
	5.3.5.	Safety Zone .....	252
5.4.		Potential Effects on Ecosystems, Fish and Fish habitat .....	252
	5.4.1.	Plankton .....	252
	5.4.2.	Benthos – Effects of Drill Mud/Cuttings .....	253
	5.4.3.	Presence of Structures .....	255
	5.4.4.	Lights and Flares .....	265

5.4.5.	Discharge of Other Fluids and Solids .....	265
5.4.6.	Deck Drainage .....	266
5.4.7.	Cooling Water.....	266
5.4.8.	Sanitary and Domestic Waste .....	266
5.4.9.	Solid and Hazardous Waste .....	267
5.4.10.	Ballast Water.....	267
5.4.11.	Bilge Water .....	267
5.4.12.	Produced Fluids .....	268
5.4.13.	Atmospheric Emissions .....	268
5.4.14.	Effects of Ships and Boats.....	269
5.4.15.	Effects of Helicopters .....	269
5.4.16.	Effects of Sound.....	269
5.4.17.	Effects of Supply Vessels .....	270
5.4.18.	Effects of the Drill Rig.....	270
5.4.19.	Effects of VSP .....	271
5.4.20.	Cumulative Effects of Underwater Sound on Fish and Fish Habitat.....	271
5.5.	Potential Effects on Commercial Fisheries.....	271
5.5.1.	Impacts on Harvesting (Exclusion / Disturbance) .....	277
5.5.2.	Fishing - Fishing Gear Interactions .....	279
5.5.3.	DFO Research Surveys.....	281
5.6.	Potential Effects on Seabirds .....	282
5.6.1.	Presence of Structures.....	282
5.6.2.	Lights and Flaring.....	282
5.6.3.	Drill Muds and Cuttings .....	287
5.6.4.	Other Fluids and Solids .....	287
5.6.5.	Atmospheric Emissions .....	288
5.6.6.	Ships and Boats.....	288
5.6.7.	Effect of Helicopters.....	288
5.6.8.	Effects of Sound.....	289
5.6.9.	Shore Facilities .....	289
5.6.10.	Cumulative Effects Summary – Marine Birds.....	289
5.6.11.	Monitoring and Follow up .....	290
5.7.	Potential Effects on Marine Mammals .....	290
5.7.1.	Presence of Structures.....	290
5.7.2.	Lights and Flares.....	294
5.7.3.	Discharge of Drilling Muds and Cuttings.....	294
5.7.4.	Discharge of Other Fluids and Solids .....	294
5.7.5.	Effects of Ships and Boats.....	295
5.7.6.	Effects of Helicopters .....	295
5.7.7.	Effects of Sound.....	295
5.7.8.	Shore-Based Facilities .....	302
5.7.9.	Cumulative Effects Summary – Marine Mammals .....	302
5.8.	Potential Effects on Sea Turtles.....	303
5.8.1.	Hearing Abilities of Sea Turtles .....	307
5.8.2.	Assessment of Potential Effects.....	307
5.9.	Potential Effects on Species-at-Risk.....	307
5.9.1.	Marine Mammals.....	308

	5.9.2.	Sea Turtle.....	308
	5.9.3.	Fish/Fish Habitat.....	308
6.0		Accidental Spills.....	310
	6.1.	Blowout and Spill Probabilities.....	310
	6.1.1.	Sources of Information.....	311
	6.1.2.	Statistics of Importance to Analysis.....	311
	6.1.3.	Categories of Spill Size.....	312
	6.1.4.	Structure of Analysis.....	312
	6.1.5.	Blowouts During Exploration Drilling.....	312
	6.1.6.	Spills Less Than One Barrel.....	322
	6.1.7.	Small Spills (1 to 10 bbl).....	322
	6.1.8.	Medium Spills (10 to 999 bbl).....	322
	6.2.	Summary of Blowout and Spill Frequencies.....	323
	6.3.	Blowout/Spill Behaviour and Fate.....	324
	6.3.1.	Shallow Water Subsea Blowouts.....	324
	6.3.2.	Above-Surface Blowouts.....	325
	6.3.3.	Deep Water Subsea Blowouts.....	327
	6.3.4.	Drilling Platform and Vessel Fuel Oil Spills.....	328
	6.4.	Modeling.....	328
	6.5.	Discharge Rates and Products.....	329
	6.6.	Potential Effects of Accidental Spills.....	329
	6.6.1.	Oil/Condensate Spill Effects Criteria.....	329
	6.6.2.	Fish and Fish Habitat.....	333
	6.6.3.	Commercial Fisheries.....	348
	6.6.4.	Seabirds.....	349
	6.6.5.	Marine Mammal VEC.....	355
	6.6.6.	Sea Turtles VEC.....	364
	6.6.7.	Species-at-Risk.....	367
7.0		Summary and Conclusions.....	369
	7.1.	Effects of Environment on the Project.....	369
	7.2.	Scoping and Methods.....	369
	7.3.	Mitigations.....	375
	7.4.	Summary of Cumulative Effects.....	377
	7.4.1.	Safety Zones.....	377
	7.4.2.	Structures and Lights.....	377
	7.4.3.	Air Emissions.....	378
	7.4.4.	Drill Mud/Cuttings.....	378
	7.4.5.	Other Regulated Discharges.....	378
	7.4.6.	Underwater Sound.....	378
	7.4.7.	Accidental Events.....	379
	7.5.	Monitoring and Follow-up.....	380
	7.6.	Residual Effects from the Project.....	380
8.0		Literature Cited.....	381
		Appendix 1: Analysis of DFO RV Survey Data from 3Ps.....	409
		Appendix 2: List of Persons Consulted.....	419

# List of Figures

	Page
Figure 1.1. Laurentian Sub-basin Study and Project Areas used in the EA. ....	2
Figure 2.1. Laurentian Sub-basin Proposed Year 1 Drill Site and Previous Drill Sites in the Area. ....	5
Figure 2.2. Location of Project Area Relative to the Gully MPA, the Cape St. Mary’s Seabird Colony and the Coral Conservation Area (Stone Fence). ....	17
Figure 3.1. Sedimentary Basins of Offshore Eastern Canada (after Keen and Piper 1990). ....	19
Figure 3.2. Physiographic Regions around the Project Area (after Fader et al. 1982). ....	20
Figure 3.3. Index Map of the Grand Banks and the Eastern Scotian Shelf (after Fader et al. 1982). ....	21
Figure 3.4. Surficial Geology of the Scotian Shelf and Southwestern Grand Banks). ....	23
Figure 3.5. Schematic Northwest-Southeast Profile across the Emerald Basin and Emerald Bank of the Scotian Shelf showing the Stratigraphic Relationship of Quaternary Sediments. ....	24
Figure 3.6. Earthquake Catalogue used to Generate Seismic Hazard Maps for Inclusion in the 2005 National Building Code of Canada. ....	27
Figure 3.7. Historic Seismicity in Central, Eastern, and Offshore Eastern Canada. ....	28
Figure 3.8. Historic Seismicity in the Laurentian Slope Region (NRCan 2006). ....	29
Figure 3.9. Simplified Seismic Hazard Map of Canada (NRCan 2006). ....	30
Figure 3.10. Historical Tropical Cyclone Tracks passing within 65nm of Grid Point 5400. 45.00 °N; 55.83 °W 1950 to 2004. ....	35
Figure 3.11. The Location of Grid Point 5400 in the Laurentian Sub-basin. ....	36
Figure 3.12. Wind Rose showing the Annual Distribution of Wind Speeds and Directions. ....	39
Figure 3.13. Percentage Exceedance of 10 m Wind Speed at Grid Point 5400. ....	40
Figure 3.14. Wave Rose Showing the Annual Distribution of Significant Wave Heights and Wave Directions. ....	43
Figure 3.15. Percentage Exceedance of Significant Combined Wave Heights at Grid Point 5400. ....	44
Figure 3.16. Percentage of Occurrence of Peak Wave Periods for each Month at Grid Point 5400. ....	46
Figure 3.17. Winter and Summer Seasonal Variability of Mean Wind Speed and Mean Significant Wave Height at AES-40 Grid Point 5400. ....	47
Figure 3.18. Average Summer NAO Index. ....	49
Figure 3.19. Average Winter NAO Index. ....	49
Figure 3.20. Monthly Mean Air and Sea Surface Temperature. ....	51
Figure 3.21. Percentage Occurrence of Precipitation Types. ....	54
Figure 3.22. Percentage Occurrence of Visibility for each Month near Grid Point 5400. ....	55
Figure 3.23. Location of Study Region. ....	56
Figure 3.24. Monthly Mean Temperature from BIO Database, 1900-2004, for the Shelf Surrounding the Southern Laurentian Channel from the Surface to 180 m. ....	58
Figure 3.25. Monthly Mean salinity from BIO Database, 1900-2004, for the Shelf from the Surface to 180 m. ....	59
Figure 3.26. Monthly Mean Temperature from BIO Database, 1900-2004, for the Southern Laurentian Channel from the Surface to 500 m. ....	61
Figure 3.27. Monthly Mean Salinity from BIO Database, 1900-2004, for the Southern Laurentian Channel from the Surface to 500 m. ....	62
Figure 3.28. Monthly Mean Temperature from BIO Database, 1900-2004, for the Laurentian Fan. ....	64
Figure 3.29. Monthly Mean Salinity from BIO Database, 1900-2004, for the Laurentian Fan. ....	65
Figure 3.30. Time Series of the NAO Index, Winter Mean. ....	67

Figure 3.31. T-S Curve, for the Banks Surrounding the Southern Laurentian Channel from the Surface to 200 m, Data from BIO Database from 1900-2004. ....	68
Figure 3.32. T-S Curves for Five Water Masses Found Between the Gulf Stream and the Continental Shelf West of 45 Degrees West. ....	69
Figure 3.33. T-S Curve, for the Southern Laurentian Channel from the Surface to 500 m, Data from BIO Database from 1900-2004. ....	69
Figure 3.34. T-S Curve, for the Laurentian Fan from the Surface to 3,500 m, Data from BIO Database from 1900-2004. ....	70
Figure 3.35. Comparison of T-S Curves Averaged by Depth for the Shelf (red), the Southern Laurentian Channel (blue) and the Laurentian Fan (black).. ....	70
Figure 3.36. The Distribution of the Offshore Labrador Slope Water at Approximately 200 m during the Maximum Southward Extension in 1998 (top panel) and it's more Typical Distribution during most of the 1970s through the 1990s (Bottom Panel). ....	71
Figure 3.37. Temperature-Salinity Diagram from the Deep Waters of the Entrance and Lower Region of the Laurentian Channel. ....	72
Figure 3.38. T-S Seasonal Depth Averaged Curve from BIO Database, 1900-2004, for the Shelf Area. ....	73
Figure 3.39. T-S Seasonal Depth Averaged Curve from the BIO Database for the Southern Laurentian Channel. ....	73
Figure 3.40. T-S Seasonal Depth Averaged Curve from BIO Database, 1900-2004 for the Laurentian Fan. ....	74
Figure 3.41. Schematic Diagram of the Main Features of the Surface Circulation in the Western Atlantic Ocean. ....	76
Figure 3.42. Bimonthly Mean Currents from Moored Measurements for the Upper Layer (Upper 30 m) and Lower Layer (Remainder of the Water Column) for Winter and Summer. ....	77
Figure 3.43. Near-Surface Mean Currents for Winter and Summer in the Gulf of St. Lawrence and the Laurentian Channel. ....	78
Figure 3.44. Geographic Location of the Survey Areas and the Current Data Sets. ....	79
Figure 3.45. Progressive Vector Diagrams for the Continental Slope (April - December 1975). ....	81
Figure 3.46. Progressive Vector Diagrams for the area outside of St. Pierre Bank. ....	84
Figure 3.47. Progressive Vector Diagrams for the Area outside St. Pierre Bank. ....	88
Figure 3.48. Environmental Contour Plot for the Laurentian Sub-basin. ....	97
Figure 3.49. Timing of Sea Ice Cover, when Present. ....	99
Figure 3.50. Percentage Occurrence of Sea Ice within the Laurentian Sub-basin, by Week, 1972 – 2001. ....	100
Figure 3.51. Mean Sea Ice Concentrations by Week. ....	101
Figure 3.52. Maximum Pack Ice Cover by Frequency. ....	102
Figure 3.53. Iceberg Distribution by Year. ....	103
Figure 3.54. Monthly Occurrence of Icebergs as a Percentage of the Yearly Total. ....	104
Figure 3.55. Iceberg Size Distributions for the Laurentian Sub-basin Block. ....	105
Figure 3.56. Bathymetry and General Iceberg Drift Patterns Surrounding the Laurentian Sub-basin Location. ....	106
Figure 4.1. Study and Project Areas in Relation to Fishing Zones, Boundaries and Marine Features. ....	141
Figure 4.2. 1986 – 2005 Harvest, All Species, Adjacent Unit Areas. ....	143
Figure 4.3. 1986 – 2005 Groundfish Harvest Adjacent Unit Areas. ....	144
Figure 4.4. 1986 – 2005 Cod Harvest, Adjacent Unit Areas. ....	144
Figure 4.5. 1986 – 2005 Redfish (spp.) Harvest, Adjacent Unit Areas. ....	145
Figure 4.6. 1986 – 2005 White Hake Harvest, Adjacent Unit Areas. ....	145

Figure 4.7.	1986 – 2005 Skate (spp.) Harvest, Adjacent Unit Areas.....	146
Figure 4.8.	1986 – 2005 Snow Crab Harvest, Adjacent Unit Areas.....	146
Figure 4.9.	Harvest by Month 1986-1988 vs 2003-2005, Adjacent Unit Areas.....	147
Figure 4.10.	Harvesting Locations, All Species, January – December 2003. ....	149
Figure 4.11.	Harvesting Locations, All Species, January – December 2004. ....	150
Figure 4.12.	Harvesting Locations, All Species, January – December 2005. ....	150
Figure 4.13.	Study Area Harvest by Month, All Species, 2003-2005.....	151
Figure 4.14.	All Species Harvesting Locations, January 2005.....	152
Figure 4.15.	All Species Harvesting Locations, February 2005.....	152
Figure 4.16.	All Species Harvesting Locations, March 2005.....	153
Figure 4.17.	All Species Harvesting Locations, April 2005.....	153
Figure 4.18.	All Species Harvesting Locations, May 2005.....	154

Table 2.1. Locations of Potential Wells. ....	6
Table 2.2. Description of Typical Drill Hole and Casings. ....	12
Table 3.1. Statistics on Tropical Cyclones passing within 65 nm of Grid Point 5400 at location 45.00°N, 55.83°W (1950 to 2004). ....	35
Table 3.2. Percentage of Wind by Direction for AES Grid Point 5400. ....	37
Table 3.3. Monthly Highest 10 Metre Wind Speed (in units of m/sec) from each direction at Grid Point 5400. ....	37
Table 3.4. Monthly Statistics, Mean Wind Speed (m/sec), Maximum Wind Speed (m/s) and Standard Deviation at Grid Point 5400. ....	38
Table 3.5. Percentage of Observations of Wind, Speed and Direction. ....	39
Table 3.6. Bivariate Histogram of Significant Wave Height and Mean Wave Directions. ....	43
Table 3.7. Monthly Maximum, Mean and Standard Deviation of Significant Wave Height at Grid Point 5400. ....	45
Table 3.8. Percentage Occurrence of Peak Spectral of the Total Spectrum at Grid Point 5400. ....	45
Table 3.9. Percent Frequency of Occurrence of Significant Combined Wave Height and Peak Spectral Period at Grid Point 5400. ....	46
Table 3.10. Monthly Air and Sea Surface Temperature Means and Standard Deviations. ....	50
Table 3.11. Bivariate Histogram of the Number of Observation of Air Temperatures in Specific Centigrade Degree Intervals by Month. ....	52
Table 3.12. Bivariate Histogram of the Number of Observations of Sea Surface Temperature in Specific Centigrade Degree Intervals by Month. ....	53
Table 3.13. Data Record. ....	79
Table 3.14. Current Speed (cm/sec) Statistics for the Continental Slope. ....	83
Table 3.15. Current Speed (cm/sec) Statistics for the Area outside St. Pierre Bank for June 1996 - April 2000. ....	86
Table 3.16. Current Speed (cm/sec) Statistics for the Area outside St. Pierre Bank for July 2003 - June 2004. ....	90
Table 3.17. Extreme Wind Estimates for Return Periods of 1, 10, 25, 50, and 100 Years at Grid Point # 5400 (45.0 °N; 55.8 °W). ....	94
Table 3.18. Extreme Wave Estimates for Return Periods of 1, 10, 25, 50, and 100 Years at Grid Point 5400 (45.0 °N 55.8 °W). ....	95
Table 3.19. Extreme Wave Estimates Together with Spectral Peak Periods. ....	98
Table 3.20. Total Iceberg Sightings. ....	102
Table 3.21. Iceberg Distribution Range by Year. ....	103
Table 3.22. Iceberg Size. ....	104
Table 4.1. SARA-listed and COSEWIC-listed Marine Species Potentially Occurring in the Study Area. ....	108
Table 4.2. Notable Invertebrate Macrofauna Known or Likely to Occur within the Study Area. ....	112
Table 4.3. Notable Invertebrate Macrofauna Known or Likely to Spawn within the Study Area. ....	113
Table 4.4. Depth Ranges of Corals Based on DFO Groundfish Trawl Surveys and the Fisheries Observer Program. ....	116
Table 4.5. Fish Species Known or Likely to Reproduce within or Near the Project Area. ....	124
Table 4.6. Adjacent Unit Areas Domestic Harvest, 2003-2005 Average. ....	142

Table 4.7.	Adjacent Unit Areas Domestic Groundfish Harvest, 2003-2005 Average. ....	143
Table 4.8.	Study Area Harvest by Species, 2003 – 2006 (January – December).....	148
Table 4.9.	2006/07 3PS Atlantic Cod Quotas and Harvesting by License Category to 15 June 2006.....	161
Table 4.10.	2005/06 Skate TAC (Quotas) for 3PS and 4VsW.....	165
Table 4.11.	2006 3PS Snow Crab Quotas. ....	171
Table 4.12.	Study Area Harvest by Principal Gear Type, 2003 – 2005 Average. ....	175
Table 4.13.	Frequency of Vessel Sizes within 3PS and 4VS, 1995 – 2001. ....	179
Table 4.14.	DFO Research Surveys, Scotian Shelf, Southern Laurentian Channel and Eastern Grand Banks.....	180
Table 4.15.	Seabirds Occurring in the Laurentian Sub-basin Study Area and Predicted Monthly Abundances. ....	186
Table 4.16.	Number of Pairs of Seabirds Nesting at Significant Seabird Colonies in Eastern Newfoundland .....	191
Table 4.17.	Cetaceans with Known or Expected Occurrences in the Project Area.....	201
Table 4.18.	Pinnipeds with Known or Expected Occurrences in the Project Area.....	220
Table 4.19.	Sea Turtles with Known or Expected Occurrences in the Project Area.....	223
Table 5.1.	Environmental Parameters to be Measured or Observed. ....	236
Table 5.2.	Project Activity Estimates Used in Developing Frequency and Duration Ratings.....	243
Table 5.3.	Typical WBM Components and Cuttings Discharge Volume for an Exploration Well....	244
Table 5.4.	Typical Constituents of SBM.....	246
