Subject: RE: Multi Klient Invest AS Northeast Newfoundland Slope Seismic Program, 2012-2017
- March Amended EA Report and Response to February Comments

Darren:

I have reviewed the submitted response and amendment against our previous comments (February 23, 2015 email). The March 2015 amendment addresses our February 23, 2015 comments. However, please note the following minor comment / omission from "Mitigation" column Table 3.1 - Marine Fish and Shellfish / Species at Risk/Critical Habitats -page 11 - the first line should read "Ramp up and shutdown procedures implemented" which was noted in the same section of Table 3.1 in the February amendment.

I trust this is of some help, if any questions let me know.

Cheers,
