Hi Darrin: thanks for your reply.

Can you confirm that you have no further comments and that the EA Addendum addressed your comments on the EA Report, Environmental Assessment of Multiklient Invest Newfoundland Offshore Seismic Program, 2018-2023 (LGL Limited March 2018), satisfactorily?

Regards  
Darren

Hello Darren:

Further to your April 20, 2018 email the April 2018 EA Addendum for the above noted seismic program has been reviewed. For the most part information presented within the Addendum addresses the comments submitted for review in our April 4, 2018 letter.

It should be noted that the response provided in relation to changing the noted statement “Several studies present information on the ecology of deep cold-water corals of Newfoundland and Labrador waters” in Section 4.2.1.2 to “Several studies present information on the ecology of deep cold-water corals of Newfoundland waters” is not required. The studies noted covered Newfoundland and Labrador waters therefore no change to original statement is necessary.

If any questions let me know.

Regards,

Hello Darrin and Carol Lee: please review the attached addendum from MKI to determine if the responses provided by MKI respecting your comments have been addressed satisfactorily. Your response should be forwarded no later than May 4, 2018. If no comments are received, the C-NLOPB will assume no comments will be submitted.  
If you have any questions please feel free to contact me.

Regards  
Darren
