Subject: Multiklient Invest AS Newfoundland and Labrador Offshore Seismic Program, 2017 to 2026 Environmental Assessment

Hi Jerry,

Please let the Board know that the following updated ECCC-CWS documents should be used in place of the older Chardine protocol documents. These represent more effective and detailed guidance for dealing with stranded birds in the offshore environment. We will be recommending that these new documents be rotated in for all offshore seismic/geophysical EA updates going forward.

Otherwise, ECCC-CWS has no further comments concerning the EA update.

Cheers,
Josh

Environmental Assessment

Hello All: please see the attached letter and Revised EA Report for this project.

If you have any questions or issues with the due date for comments please feel free to contact me.

Regards
Darren
