Subject: RE: Multiklient Invest AS Newfoundland and Labrador Offshore Seismic Program, 2017-2026

Hi Darren,

Thank you for the opportunity to comment on the MKI NL Offshore Seismic Program 2017-2026 project description and scoping document. As the project area and study area are both encompassing of a vast area, these areas contain NL's most lucrative fishing grounds. As we have been able to maintain a good working relationship with MKI to date, we anticipate the same respect for fish harvesters both during the input and operations stages will continue.

We look forward to continued consultation and open lines of communication, and we appreciate the inclusion of both Fisheries Liaison Officers and Fishery Guide Vessels in the document. These services have proved invaluable to ensuring a strong working relationship.

Thanks again and we look forward to future consultation.
