Please find enclosed two hard copies of pages 72 and 75 (double-sided) of the “Environmental Assessment Update (2019) of the Multiklient Invest Newfoundland Offshore Seismic Program, 2018–2023.”, which reflect the following:

- Page 72: revised Figure 4.35 which has removed the portion of the 2019 Planned 2D Survey Area that overlapped with the Laurentian Channel MPA.
- Page 75: revised text which now reads “MKI will not conduct any Project activities within the Laurentian Channel MPA”.

We have sent an electronic version of the revised EA Update via e-mail.
