Dear Mr. Murphy:

RE: Project Description: Multiklient Invest Newfoundland Offshore Seismic and Environmental Data Collection Program, 2025–2029

Multiklient Invest AS (MKI), a wholly owned subsidiary of TGS, is proposing to conduct 2D, 3D, 4D seismic surveys and/or collect environmental data offshore Newfoundland within the 2025-2029 timeframe.

Accompanying this letter is an updated Project Description (PD), which replaces the previous MKI Project Description (submitted to the C-NLOPB on 13 October 2023). This PD is the first step in the C-NLOPB environmental assessment (EA) process and combined with the technical and scoping advice received from the C-NLOPB, other federal agencies, and stakeholders consulted by MKI will guide the preparation of an EA.

I would like to thank you for your attention to this matter and look forward to working with the C-NLOPB on this submission. Should you require any additional information or have any questions do not hesitate to contact me at [REDACTED]

Best regards,

Jason Norman
Project Manager
