Dear Ms. Davis:

**Re: Multi Klient Invest AS – Offshore Labrador Seismic Program 2011 to 2013
Environmental Assessment Amendment**

The Canada-Newfoundland and Labrador Offshore Petroleum Board (C-NLOPB), in consultation with the Board's fishery and environmental review agencies, has reviewed the environmental assessment (EA) amendment report "*Amendment - Environmental Impact Assessment for Marine 2-D Seismic Reflection Survey Labrador Sea and Davis Strait Offshore Labrador*" (March 2012). The report is an amendment to the "*Environmental Impact Assessment for Marine 2-D Seismic Reflection Survey Labrador Sea and Davis Strait Offshore Labrador*" (RPS Energy March 28, 2011) and Addendum (RPS Energy June 2011) and was provided by RPS Energy, for Multi Klient Invest AS, in support of the request to extend the temporal scope to include the month of June.

The EA Amendment report (March 2012) provides a satisfactory assessment of environmental effects associated with this activity. The C-NLOPB is of the opinion that, taking into account the implementation of proposed mitigation measures committed to by Multi Klient Invest AS, the project is not likely to cause significant adverse environmental effects.

If you have any questions on the attached, or wish to discuss the environmental assessment review process, I may be reached at 709-778-4232 or via email at eyoung@cnlopb.nl.ca.

Yours truly,
