Subject: RE: Nexen Energy ULC- Commencement of Environmental Assessment Eastern Newfoundland Offshore Geophysical, Geochemical, Environmental and Geotechnical Program, 2018 - 2027

Hi Darren,
I note the project activity will take into account "timing and intensity of commercial fisheries". To help mitigate impacts on commercial fishery we encourage the proponent to consult with the fishing industry as part of this process, specifically the FFAW and the Groundfish Enterprise Allocation Council (GEAC).

Thanks,
Director, Sustainable Fisheries and Ocean Policy
Department of Fisheries, Forestry and Agrifoods
