Gentlemen:

**Re: OHSI Recommendation #26 – Conferences**

In the OHSI Report, Commissioner Wells stated:

**It is recommended that the Regulator be funded and equipped to initiate high-level safety conferences with the oil operators, the helicopter operator(s), worker representatives, and stakeholders at least every two or three years. The Regulator should engage experts to advise on the most up-to-date safety initiatives and should invite the participation of regulators and researchers from other jurisdictions.**

The Board's OHSI Aviation and General Teams will collectively plan for the recommended safety conferences, with a target of 2012 for the first conference.

We request that you make appropriate resources and personnel available to be part of these teams in developing this plan. These resources should include representation from Operators, helicopter operators, the workforce, and appropriate third-party service providers.

Sincerely,

  
Max Ruelokke, P. Eng.  
Chairman & CEO
